TRAINS HELD UP.

The Robbers Stopped the Wrong Train and Got Nothing For Their Trouble.

KANSAS CITY, Nov. 18 .- The Missouri Pacific passenger train, known as the St. Louis fast mail, which leaves Kansas City at 9 p. m., was held np by five masked robbers at 9:30 o'clock last night, at the Chicago and Alton crossing, just east of Independence, Mo., and less than a mile from the famons Blue Cut, in which three train robberies have occurred within the past year.

Two of the robbers were disgnised as women, and when the engineer saw them swinging a lantern across the tracks, an apparent signal of danger, he did not hesitate to stop. The engine crew were immediately covered with revolvers. Conductor Dennis O'Brien and Brakeman McMichael stepped out to see what was the matter and were to see what was the matter and were greeted by a volley of bullets, which at once cansed the greatest confusion in the passenger coaches. The conductor and brakeman were compelled to cut the express and baggage ears from the rest of the train, and the engineer and fireman were made to get down from their cab. The robbers quickly jumped aboard and took the engine and express car about two miles further east, where they stopped and compelled Express Messenger Williams to open his ear. He offered no resistance, as he carried no treasure. The robbers had evidently intended to stop the St. Louis limited night express, which leaves Kansas City at a later hour, and were greatly sur-prised npon discovering that the cars which they had captured contained nothing of value.

In their rage they ponneed upon the express messenger and went through his pockets, but \$2.85 was all that they seenred. After this they quickly left the train and disappeared in the darkness. After a delay of nearly an hour the train was got together again and was started on its journey. The county marshal and his men were at the scene of the robbery very soon, but there is every probability that the robbers were safely in Independence or Kansas City before an organized effort was made to capture them. capture them.

Dauntless Successful With Two Expeditions.

Carrying Out a Plan to Seize a Spanish War Vessel-Minister Woodford Says the United States Is Satisfied With Spain's Present Policy-Weyler Has More to Answer For.

JACKSONVILLE, Fla., Nov. 18.—The tng Dauntless arrived off the St. John's bar Wednesday night and proceeded to Fernandina yesterday morning. Before leaving the bar Colonel Nnnez, the Cuban patriot leader, who embarked on the schooner Silver Heels expedition, and Captain John O'Brien, the famous filibuster, were put ashore from the Danntless.

Captain O'Brien now reports that the Dauntless connected with Silver Heels about Oct. 24 off the Florida keys, and again about Nov. 1. Both times large quantities of munitions of war were transferred and safely landed on the coast of Cuba.

Dr. Jnan Castillo and Captain Charles Silva were landed in Cuba, and will re-main until the war is over. Their in-tention is, as was reported, to organize a Cuban force to seize a Spanish war-ship and defend the first port captured by the Cubans.

R. G. Dun & Company's Report on the Condition of Business.

NEW YORK, Nov. 13.-R. G. Dun & Company's weekly review of trade says Colder and more stormy weather, so long needed to accelerate distribution of winter goods, has materially helped in some quarters, and the resulting improvement in retail trade is mentioned in nearly every northern dispatch this week, so that orders to fill stocks have been encouraging, and in some branches the multitude of demands for immediate delivery, show that the distribution ate delivery, show that the distribution to consumers has already gone much beyond the expectation of dealers. But this is not yet the general rule, and with complaints of delayed trade from other quarters, there still remains the extensive shrinkage cansed by fever and quarantines at the south. It is, therefore the more surprising in that the volfore the more surprising in that the volume of all payments through clearinghouses continues about as large as in 1892, and 16.7 per cent. larger than last year. Railroad earnings also nearly equal those of 1892 for the first week of November and half the mileage in the United States shows earnings in October of \$50,354,496, or 8 per cent larger than last year, and 2.2 per cent larger than 1892. Speenlative markets feel disappointment because prices do not rise farther and faster, but it is fortunate for producers and dealers that the experience of some past years in that respect has not been repeated. There is nothing to cause general reaction, the purchasing power of the people is gradnally increasing and after the hull which follows extensive replenishment of stocks, trade should give ample evidence of that increase.

The output of iron furnaces Nov. I was 213,109 tons weekly, against 200,-129 Oct. 1, a gain of 6.1 per cent, and unsold stocks decreased 48,690 tons in October, indicating a larger consumption in mannfactures than ever before, even when the output of pig was pushed by swiftly advancing prices to the highest point, 217,682 tons, Nov. 1, 1895. Prices of iron products rose that year 55.3 per cent, but are now not 4 per cent higher than June 9. The enor-mous output, with some more furnaces mous output, with some more furnaces started in November, causes but a slight decline in Bessemer pig to \$10.25 at Pittsburg, with no decline in other pig there, at the east, or Chicago, and no fall in prices of finished products, except a shade in angles. While most works have orders for the rest of the year, and in sheets and some other branches are far behind in deliveries, new orders are few, but include one for new orders are few, but include one for 2,000 cars at Chicago and one for 400 at Pittsburg, one for an armored ship at Chester, many for small buildings and for St. Vincent's hospital and three school houses here, many for bridges, with some for the drainage canal at Chicago, a lively demand for hoops, and a large export business, with a quantity of bars for Asia.

Woolen mills generally have orders for three months ahead, and are not seeking further engagements. Large sales of speculative lots of wool at prices not stated snggest that it may be lower before the mills need further orders. A year ago the price began to Union constitutional party in Cuba that mount, with heavy speculation, and has risen 59 per cent, without reaction in quotations, while the rise in goods averages but 14 per cent.

The decline in cotton and the slow demand for goods, owing in part to warm weather, have led cotton mills to confer about curtailment of production, and further reductions have been made in brown sheetings and drills, prints and by jobbers in bleached goods. Cotton declined an eighth to 5.87 cents for middling uplands, and both exports and takings of spinners have been

Wheat dropped over 2 cents, but has not since risen as much with heavy buying for export. Western receipts continue heavy in two weeks 14,028,907 bnshels, against 10,581,193 last year, while Atlantic exports, flour included, have been 6,562,025 bnshels, against 3,921,251 last year. An English authority reckons the world's yield at 101,000, 000 bushels less than last year, which vould mean a market for all this country has to spare.

Corn exports are again larger than last year and the price has risen 15-8 cents. Later prices of meats do not indicate that farmers have as yet much inducement to save corn for feeding. Failures for the week have been 291 in the United States, against 276 last year, and 24 in Canada, against 46 last

New Head to the Order of the Knights of Labor.

OTHER OFFICERS ALSO ELECTED.

Their Time of Office Had Not Expired, but They Wished to Retire-Henry A. Hicks of New York Elected General Master Workman-Names of the Other Officers Selected by the General Assembly.

Louisville, Nov. 13.-James R. Sovereign, who has been general master workman of the Knights of Labor for the past four years or more, and who during that time has been one of the ablest champions of the order and its doctrines, was yesterday afternoon relieved of his office by the general assembly, which has been in session in this city sinee Monday last. Under ordinary conditions Mr. Sovereign's term of office would not expire until the next meeting. This, however, it is said, makes no difference with the order. whose general officers during a meeting are always in the hands of the assenibly and can be chosen and deposed at the will of the majority. Along with Mr. Sovereign, there were three other officers retired because of their special election, viz.: T. B. McGnire, general worthy forenian, of Amsterdam, N. Y., and Daniel Brown of Montana, and H. B. Martin, of Minnesota, members of B. Martin of Minnesota, members of

the executive committee.

Henry A. Hieks of New York, District 253, New York city, was chosen to fill Mr. Sovereign's place, and I. D. Chamberlain of Pueblo, Colo., was selected as general worthy foreman. Sarsfield Fitzpatrick of Montreal and Henry Bostock of Assembly 300, glass workers, were chosen as the two members of the executive board, the third member being Andrew D. Best.

This very decided change in the corps of general officers of the Knights of Labor will cause considerable astonishment in labor circles throughout the country. Save to those who were on the 'inside,' so to speak, for the past three months, there was absolutely nothing of this known. It is said, though the change was sudden and totally unlooked for, it was done with the amicable consent of all. In some quarters it is hinted that it had been prearranged before the delegates gathered in this city for the general assembly. On good anthority it is learned that it was with Mr. Sovereign's most hearty approval that he step down and out. It is likewise with the appreciation, and in fact love of his brethren of the order, that this is done. The same holds good with the other officers who were relieved. Mr. Sovereign stated last night that he wished retirement. He wanted rest from the labor which the office entailed upon him.

Henry A. Hicks, the general master workman-elect, was seen after the meeting. He said that he did not intend to outline the future policy of the oader under his administration for several days yet. He expressed the highest admiration for his predecessor, saying that he thought him one of the greatest exponents of the age of the prime idea represented by the Knights

In the morning session, the remnant of the routine business which had been left over, was disposed. The afternoon session was principally taken up with the delivery Mr. Sovereign's annual address, which was listened to by the delegates with the greatest interest and greeted with enthusiasm.

After the annual address, the change in officers took place. The old officers were relieved and the new ones elected and installed.

Mr. Sovereign's name was the first one mentioned in nomination, but he immediately arose and said he would not accept.

No one opposed Mr. Hicks. The other officers were also chosen with as much The assembly was then declared to be

AN UPHOLSTERY HINT.—Antumn selling of Lace Curtains has been especially brisk. Usual resuit: odd pairs and two pairs of a pattern are left here and there, and the oddments are choicest patterns, else their fellows would not have been soonest sold—just such curtains as are tastefully best in the average home. Price clipped, though the goods are fresh and perfect. Nottingham Curtains \$1.25 instead of \$2 a pair and \$1.75 instead of \$2.50. Rennaisance Curtains \$2.75 instead of \$3.75 and \$3.75 instead of \$5.00.

DRESS TRIMMINGS.—We have sold double the amount of former seasons. Why? Because we never carried such a complete stock. Many styles and many coiors. Velvets, silky buttons, wide and narrow braids, jet and fancy Chiffons. Get your dress trimmings of ns and get suited, both as regards quality and price. SOFA PILLOWS.—You'd never guess how we manage to seil these beautiful silk, gold-embroidered Pillow Covers at 50c. It isn't the cover's fauit. The man

who isn't making money on them is glad the lot is small. You'll be sorry.

FOR SATURDAY NIGHT.—Tycoon Fiannelette in the pretty colorings you want for wrappers or children's wear or Men's outing shirts or pajamas. The Tycoon washes and wears in that comforting way that pays for the trouble of making it up. It's worthy the home-done sewing, too, and comes in prettily printed patterns. 10c. it has been and will be. For Saturday night only the price is cut to 61c. Pienty for everyone—no quantity limit. We regretted the ginghams had to be iimited, but when first comers want 25 and 30 yards we were forced to call a halt. so that no one would be disappointed. We thought we had provided for every gingham need of Maysville with 2,000 yards, but our thronged counters soon convinced us our reckoning was short. Hence the five yard limit.

Haibert's Friends Will Try to Prove the Crime Was Committed by a Tramp.

A letter received Wednesday by Landlord Jack Cropper of the Junction Hotel, from W. C. Haibert, Prosecuting Attorney of Lewis County, gives out the fact that an endeavor is to be made CHRISTIAN Church, S. D. Dutcher pas- to clear H. D. Halbert of the murder of

The letter asks Mr. Cropper for all information he can give concerning the man who stopped with him on the night of the murder, and is supposed to have been Halbert. The letter affrms that Halbert was at home at the time the murder was committed and that it is the belief of the family that the deed was done by a tramp in the town that day, J. H. He also left a letter for his wife, saying that he was going away never to return, but would send for her.

> If Halbert is innocent, why did he proceed to make himself so very scarce about Vanceburg as soon as the heinous crime was commifted? And why doesn't he come forward and surrender himself? Probably he's waiting until the burns caused by the acids that fell on his hand have had time to heai. It is more probable, however, that he will never go back to Vanceburg if he can prevent it in any way at all.

State Commissioner of Agriculture Moore's report for November is made up of replies received from 116 correspondents from 82 counties.

Wheat.—The acreage seeded to wheat up to November 1st, as compared to acreage of 1890, is 90 per ceut. Remarks of correspondents indicate that the present acreage will be increased should the season permit of fall plowing during November. Figures on the number of acres for this reason are withheld until next month. The condition of the crop as compared with average years is 62. On November 1st, 1896, the condition was 96. It is estimated that 16 per ceut, of the crop will have to be resown. Only a small proportion of the crop is above ground and in some cases it is coming up tion. in spots here and there through the fields. No complaint is made of damage from insects save in Christian County, where two correspondents report worms doing great damage.

Hogs.-The condition of hogs being fatteued for market compared with average years is S7. Tho dry weather has been very unfavorable for feeding, and the best results have not been secured. Cholera is not prevailing to any great extent; 35 correspondents report cholera, while 80 correspondents report none.

Cattle.—The condition of cattle is 86. Pastures failed in some sections as early as September 1st, and since that time the condition has steadily fallen off. Feeding has been necessary during the entire month and many farmers put their herds ou the market for what they would bring rather than contend with the many difficulties in the way of a supply of water and the long feeding season intervening between now and spring grazing. The supply of cattle is for this reason very low.

Horses and Mules.-The condition of horses averages 87. The price of young horses and mules has been greatly affected by the increased cost of carrying through the winter and the demand that had sprung up for this class of stock as well as the improvement in price has disappeared.

Sheep.—Sheep show a condition of 90 and have withstood the trying conditions probably better than any class of stock.

The Drouth.-The drouth, which ended with the rain on the night of October 31, was, in extent of duration, one of the severest on record. Its effect on crops. however, was mitlgated by the fact that it did not set in until crops were saved or advanced to a stage where serious injury was impossible.

TARDY JUSTICE. Durant Back in His Old Cell For Three Months Longer.

SAN FRANCISCO, Nov. 13.-In view of the fact that the snpreme court, which is now in session at Sacramento, will adjourn on Tuesday next until the second Monday in January, it is considered improbable that W. H. T. Dnraut, the condemned murderer of Blanche Lamont and Minuie Williams, will expiate the crime, for which he was sentenced to be hanged in December, 1895, during the current year. In the ordinary conrse of events, the matter can not come up for hearing npon the points involved in the order granting the certificates of probable cause, to which Durant owes his second lease of life, until the middle of January.

After the case has been decided, another 30 days at least must intervene before the remittur from the supreme court can reach the trial court and the condemned man be resentenced for the second time. This course would not allow the execution to take place before the latter part of February or the beginning of March next. It is possible that the attorney general may apply to the supreme court to advance the case, but this action is unlikely. Meantime, Durant has been removed from the condeuned cell and returned to his old cell, No. 21 in mnrderers' row, at San

New Jury to Try Thorn. LONG ISLAND CITY, N. Y., NOV. 13 .-There will be another trial in the Thorn case. The remaining 11 jurors have been discharged and a new panel will be called. The new trial will begin a week from Monday. The testimony must be heard all over again. This decision was reached after District Attor-

neys Youngs declared that he would not accept a proposition made by Law-yer Howe to draw an additional juror and continue with the trial. Death of Distinguished Painter. LONDON, Nov. 18.-John Bagnold Burgess, member of the Royal Acade-

my, and a distinguished painter, died yesterday in the 68th year. Mr. Burgess was born Oot. 21, 1830, at Chelsea, and received his artistic education at the Royal academy, of which he was elected an associate on June 18, 1877, and made R. A. in 1889. FAST DISAPPEARING.

House Completely Demolished.

MIDDLETOWN, Ind., Nov. 13.—The home of Miles Stauley, two miles east of this city, was completely destroyed by a natural gas explosion late yesterday afternoon. There was a leak in the mains near the honse, and the high winds blew the gas into the house, and this was ignited by a blaze in the heating stove. There was no one in the house at the time, and, consequently, uo one was injured.
